THE FRANCOLÍ RIVER

- ▣ The river is born in Espluga de Francolí (about 50 km away from Tarragona).
- ▣ It flows into the Mediterranean sea in the port of Tarragona.
- ▣ The length of the river is 60 km. and only 20 metres wide.
- ▣ It has an irregular flow and provoked some floods. In 1994 it became really dangerous.

LEGENDS

November

- ▣ We had to create a legend in November.
- ▣ We divided the class in 4 different groups.
- ▣ Each group had to write a new legend.

Older monsters of Francolí river

- ▣ We decided to make a legend about the “Nymphs” in Francolí river.
- ▣ Our legend talks about Tarragona in the XIXth century: some people disappeared in the forest where the Francolí river is situated.

A boy talked to a survivor and he explained that in the past he saw beautiful girls who drown people in the river.

The boy went to the river with a friend, and when they arrived, the Nymphs drown the two boys and they died.
